## Story of Pigs in the Castle!

As the town's daughters went missing, the pork business thrived. Seems like an odd coincidence, doesn't it?

You are Oswald, a brave young man seeking adventure and fortune. You wandered into the Castle in one of the most haunted places in the world, Duckley England, hoping to find treasures and more but soon found out you are most certainly not alone!

It was a cold dark evening and looks to be darker yet as you hear the door lock behind you. Now you find yourself trapped into a blood bath of feral insane pigs and hints of an even greater evil hidden deep within the castle depths. You were warned before you came here that this was no place for any sane person, and you had to evade the villagers and barricades just to get inside. Funny how the walls and fences seemed to be arranged in such a way to keep something in even more than their use to keep you out...

## Game Play!

Dress the fire button at the title screen and get to work!!!

You are Oswald and start the game with your life intact.

Good luck keeping it that way!

If you run out of cash the game is over.

Move Oswald and press fire button to slaughter pigs and pick up cash.

## Hints / Tips

Try different angles of attacks on the pigs

Sometimes its best to just take your cash and run, at least try to run! Haha ha ha ha ha!!!

You have One life to live make the most of it!
