Remember KABOOM! on the Atari 2600? Of course you do! Everybody who had an old Atari had KABOOM! This homebrew recaptures the magic of the old 2600 game and even supports after market Atari Jaguar rotary controls! Get ready for KABOOM! This is from MY PERSONAL COLLECTION and I just don't have space for it anymore on the shelf. Its a great homebrew game from one of the members at Atari Age. Hours of fun gameplay. I will accept best offers but the asking price is \$29.99. No reasonable offer will be denied. I believe in fair pricing and as this software was MADE by an individual and not of the official release library I can understand why one would not want to give up an arm and a leg for it. Too many other eBay sellers are out there ROBBING people for their money when it comes to Atari Jaguar software. All of my games are tested and fully working guaranteed or your money back!
