

822™ THERMAL PRINTER

ATARI®

The **ATARI® 822™ Thermal Printer** generates hardcopy printout of computer programs and data for the **ATARI Personal Computer Systems**. It is compact and lightweight and may be used with many combinations of hardware and software.

THE ATARI® 822™ THERMAL PRINTER (40-column)

The **ATARI 822 Thermal Printer** is an intelligent microprocessor-based dot matrix printer. It features bidirectional look-ahead printing (prints right to left as well as left to right). This high performance serial printer provides a full 96 character ASCII set, 10 characters per inch, and full line buffering.

The **ATARI 822 Thermal Printer** is highly reliable because of its mechanical simplicity. Installation is quick and easy with direct connection to the computer console or other optional peripherals. The I/O Data Cord and AC Power Adapter are included with the **ATARI 822 Thermal Printer**.

The 822 Thermal Printer is packaged with one roll of white thermal paper installed. Additional rolls may be purchased in two-roll packs through your ATARI dealer (Part no. C015995). Thermal paper is heat sensitive, and care should be taken to store it in a cool, dry place.

FEATURES & SPECIFICATIONS

- 37 characters per second.
- 10 characters per inch.
- 40 characters per line, upper/lower case and point graphics.
- 5 x 7 dot matrix.
